## 1. OVERVIEW OF THE COUNTRY DIRECTED FUND

The Country Directed Fund (CDF) mechanism was established in 2009 under the Comprehensive Disaster Management Harmonized Implementation Programme: Phase 1 (CDM HIP), to support the urgent need expressed by National Disaster Offices (NDOs) to access funds to strengthen their ability to achieve tangible CDM results where national budgets were insufficient. With financial support from the Department of Foreign Affairs, Trade and Development of Canada (formerly CIDA), UK Aid from the Department for International Development (DFID) and the Department of Foreign Affairs and Trade (formerly AusAID).

After this period elapsed, it continued through the European Commission funded, Strengthening of the Capacity of the CDEMA Coordinating Unit and Participating States for Implementation of Comprehensive Disaster Management project and is now being undertaken through the 11<sup>th</sup> European Development Fund action between CDEMA and the European Union entitled ***"Building Resilience of the CARIFORUM States to Disaster Risks and Climate Change Impacts"***. Through this mechanism, funding will continue to be provided to its eligible Participating States.

With its emphasis on providing quality country centered programming support; the CDEMA CU will implement the Country Directed Fund (CDF) with a view to strengthening the foundation that has been laid for transforming the CDF into a grant mechanism that meets international standards.
