

### Effect on education personnel

**Raised stress levels**

Financial needs due to temporary displacement.

Increased pressure to use new methods of teaching while perhaps dealing with their own children at the same time.

### Infrastructure & materials

The building / infrastructure may get damaged.

The building / infrastructure may get damaged.

Damage to water and sanitation facilities

## Group 1

### Effects on learners

**no school classes**

Displacement - to other locations within a territory

Increase in violence due to frustration on parent or even students.

Increase in violence due to frustration on parent or even students.

Missing friends and interacting with them

Behavioural impacts -withdrawn students and even teachers

Parents abuse children due to frustration of the crisis. E.g. They may have to play a major part in the delivery of the curriculum at home through Zoom etc.

Very often, the school setting is the only safe place some students have. So this safe space is now no longer available.

### Others

in the case of COVID 19 requirement for online schooling and lack of access to technology which widens learning divide

**No access to the new tools required**

Lack of respect of time boundaries in virtual environment
